

## HAMMER CRUSHER

# 锤式破碎机

### 产品介绍 Product Introduction

锤破是一种最通常得破碎设备,破碎比(一般在10-25,最高可达50)高,产能高,成品力度好,能耗低,结构简单,质量可靠,且维修方便。

Hammer breaking is one of the most common crushing equipment, crushing ratio (generally in 10-25, up to 50) high, high production capacity, good finished product strength, low energy consumption, simple structure, reliable quality, and convenient maintenance.

### 产品优势 Product Advantage

- 1 高质量耐磨锤头。  
High wear-resistant hammer head.
- 2 投资小回收效益高。  
Small investment, high benefit.
- 3 出料粒度细。  
Fine output size.

### 产品参数 Product Parameters

型号 Model	进料尺寸 Feeder Size (mm)	出料尺寸 Output Size (mm)	生产能力 Capacity (t/h)	电机功率 Motor Power (kw)
PC400X300	<100	<15	5-10	11
PC600X400	<220	<15	10-25	22
PC800X600	<350	<15	20-40	55
PC800X800	<350	<15	20-60	75
PC1000X800	<400	<15	20-80	110
PC1000X1000	<400	<15	30-85	132
